BOOK SYNOPSIS

I am deeply terrified by the obsessions crawling over my body, whether they come from within me or from outside. I fluctuate between feelings of reality and unreality. I, myself, delight in my obsessions. Yayoi Kusama is one of the most significant contemporary artists at work today. This engaging autobiography tells the story of her life and extraordinary career in her own words, revealing her as a fascinating figure and maverick artist who channels her obsessive neuroses into an art that transcends cultural barriers. Kusama describes the decade she spent in New York, first as a poverty stricken artist and later as the doyenne of an alternative counter-cultural scene. She provides a frank and touching account of her relationships with key art-world figures, including Georgia O'Keeffe, Donald Judd and the reclusive Joseph Cornell, with whom Kusama forged a close bond. Incandid terms she describes her childhood and the first appearance of the obsessive visions that have haunted her throughout her life. Returning to Japan in the early 1970s, Kusama checked herself into a psychiatric hospital in Tokyo where she resides to the present day, emerging to dedicate herself with seemingly endless vigour to her art and her writing. This remarkable autobiography provides a powerful insight into a unique artistic mind, haunted by fears and phobias yet determined to maintain her position at the forefront of the artistic avant-garde. In addition to her artwork, Yayoi Kusama is the author of numerous volumes of poetry and fiction, including *The Hustlers*, *Grotto of Christopher Street*, *Manhattan Suicide Addict* and *Violet Obsession*.
